

### REMARKS

Upon review of the formal drawings filed March 1, 2002, a discrepancy between the drawing as filed and the formal drawing has been observed. The correction is marked in red on the enclosed FIG. 4, and a corrected substitute drawing is enclosed herewith, thereby bringing the recently submitted FIG. 4 into conformance with FIG. 4 as originally filed. Please acknowledge acceptance of corrected FIG. 4.

The specification has been amended at page 4, line 31 to correct a grammatical error.

The specification has been amended at page 5, line 31, to correct typographical errors.

Respectfully submitted,

Date

4/29/02

Gregory A. Bruns
